

ABOUT US

Boomers Laser Tag Adventure is 3200 square feet of multi-tiered laser tag excitement.

Various ramps allow access to a series of high perches. Position your team to gain maximum advantage over your opponent. The higher you go, the greater the advantage. But there's a catch, the higher you go the greater the distance to your opponents base.

When the time is right, take advantage of the strategically positioned ground level barriers to charge your opponents position. Tag the base to score.

After the battle debrief at the lobby monitor where you can scrutinize your teams' final scores and proclaim the winner.

Did your opponent get the best of you? Want a chance to avenge your loss? We offer parties, group outings, daily multigame and unlimited pass specials. Boomers Laser Tag Adventure, the area's newest arena, offers the latest in technology and excitement.
